

Annex to the Certificate no. 1217/5/2021

Details of approved type

Maximum allowable pressure PS:	276 bar
Test pressure PT:	395 bar
Min./Max. allowable temperature TS _{min/max} :	-40 °C / 100 °C
External diameter:	273 mm
Internal length of cylindrical portion:	1159 mm
Internal volume:	47 L
Minimum wall thickness of cyl. portion:	11.6 mm
Material of cylindrical portion:	seamless tube - EN 10216-3 grade P460 NL1
Minimum wall thickness of ends:	41.6 mm
Material of ends:	forging - EN 10222 grade P355H1
Group of fluid (2014/68/EU):	mineral oil / 2 nd group
Pre - charging medium:	nitrogen
